

**CENSUS OF NEWFOUNDLAND, 1945**

---

**POPULATION OF NEWFOUNDLAND**

**BY AGE GROUPS AND SEX**

Report No.  
PN-2

19. *Leucosia* *leucostoma* *leucostoma* *leucostoma* *leucostoma* *leucostoma* *leucostoma*

For the first time, the results of the 2010 Census are available for download in a single, easy-to-use, and accessible format.

PREFACE

This report contains the second group of a series of tables being prepared giving final population figures from the 1945 Census of Newfoundland. The tables in this group deal with the age distribution of Newfoundland's population. Initial tables, (1 to 6 inclusive), released in a previous report, gave figures on the population of Newfoundland according to districts and settlements without further classification except by sex, and included historical data to show the growth of population from earlier census periods. Other reports to follow in the "PN" series will give the population of Newfoundland classified by such subjects as religion, marital status, literacy, schooling, birthplace, etc.

Table 7 herein shows the numerical and percentage distribution of the population of Newfoundland by five-year age groups and sex at each census from 1901 to 1945 inclusive. Table 8 gives the population by five-year age groups and sex for the 25 districts of Newfoundland according to the 1945 Census, with comparative figures for 1935. Table 9 classifies the population of individual towns and settlements of 1,000 and over in 1945 by somewhat broader age groupings and by sex. Finally, Table 10 shows the age distribution of the population in 1945 for each settlement regardless of size, arranged alphabetically by districts, according to these specified age groups.

The reports in this series represent final tabulated results from the Census of Population, Agriculture and Fisheries, taken by the Newfoundland Government in 1945. These tabulations have been carried out in the Dominion Bureau of Statistics at the request of Newfoundland. Further reports are being released to show classifications of the population by occupations, industry, income, etc., as well as data relating to households and families, and summary compilations of the Census of Agriculture and Fisheries.

*Herbert Marshall*

Dominion Statistician.

April 21st, 1949.
